Judgment - northern OnePlus, this 2 liteFighter of the budget segment of the company, one of the most comprehensive offers of the company. The phone provides a lot, including clean software, high performance and a battery that can run the OnePlus Nord CE 2 Lite for a very long time. On the outside, it has a beautiful display with a very fast response and an impressive design at the same time. However, the phone is flawed as it lacks stereo and HDR speakers, which makes it difficult for the phone to offer an immersive multimedia experience. The cameras are also mediocre at best, as photos clicked on the OnePlus Nord CE 2 Lite often lack detail and stabilization. Should I buy it? - Yes. The phone has great features and features at a reasonable price. ... Conclusion - Motorola Moto G72 is a great device for enjoying content. With stereo speakers and a polar 6.6-inch large screen, this product can enhance the content imaging experience, especially when compared to similarly priced LCD screen phones. However, the phone packs a Helio G99 SoC which isn't as reliable as the Dimension 810 or Snapdragon 695 SOC on some similarly priced devices. Should I buy? - Perhaps. If content consumption and clean software are more important to you, consider the Moto G72. ... Read More elaborates: MediaTek Helio G99 Eight-core eight Memory: 6 RAM, 128 Memory Display: 6.55-inch (QHD) display, 405 PPI, 120 refresh rate camera: 108 mp triple rear camera, 16MP front video recording Battery: Fast charging Type-C connector and USB 5000 MAH SIM SIM: Dual SIM Functionality: LED flash price: €16,999 User ratings 5/5 4 Realme 9 SE, a SACCOMM SNAPDRAGONG 778G reliable use the processor to play on a budget budget. Conclusion -Games, even those who buy the most important and affordable smartphones ever are waiting for a smooth gaming experience. Realme 9 SE, supported by the strong Qualcomm Snapdragon 778G processor, offers you a fluent gaming experience with constant squared speed. Should I buy? - Yes, it's a great option for users who spend a lot of time playing games on their phones but don't want to spend ridiculous money on a smartphone. ... Read more pluS SOT SOC SOC, Supports 144Hz Renew Rate Good Battery Life C Bloatware Ultrawide Shooter No Stereo Speakers 6.6-inch (QHD), 401 PPI, 144 Renew Rate Screen: Triple Rear Camera 48 MP, 16 MP front battery with camera video recording: 5000Battery and USB Type-C port. SIM cards with 5G support. Features: LED flash. Price: £17,719. design. Verdict - The Realme 9 Pro is an attractive proposition in this price range, with excellent battery life and sharp looks. The Snapdragon 695 SOC is quite reliable for games with average graphics (example: COD Mobile) and is tried and tested in several other phones such as Redmi Note 11 Pro and Poco X4 Pro. The phone's main lens can take clear and colorful photos even in daylight. Add to that good battery life. However, the user interface is full of malware. Should I buy it? - Yes. Realme 9 Pro offers reliable cameraworthy performance and long battery life. ... Read more advantages, fast refresh rate, main camera is good in daylight Fast charging 33 W, no minus HDR support For other cameras, other technical characteristics of the processor need to be set: Qualcommed Snapdragon 695 5G Octa Core (2.2) memory: 6 RAM, 128 Screen memory: Display memory: 6.6 / Display (QHD), 405 pixels per inch, refresh rate 120. Camera: 64 megapixel front camera with video recording. Battery: 5000 mAh battery with fast charging and USB Type-C.: P 18,999 user rating 4/5 based on rating system 8 for Mediatek Dimensity 810 Crystal installed in this phone is reliable in this price range. Verdict - The Oppo K10 5G is a mid-range device with 5G support and an attractive design. It also has really impressive battery life and solid gaming performance, given that it has one of the most productive SOCs in this price range. However, you will miss the high refresh rate and the user interface is full of malware. Should I buy it? - Yes. Realme 9 Pro offers reliable camera-worthy performance and long battery life. ... Read more pros stylish design impressive battery life Fast processor: Mediatek Dimensity 810 Octa Core Memory: 8 RAM, 128 ROM Screen: 6.56 inch display, 269 PPI 90 updates for update Rate camera: 48MP dual rear camera, 8MP front camera with video Battery: 5,000 mAh battery and USB Type-C SIM: Dual SIM: LED flash Price: £16,990 Sterling Realme Narzo 30 Pro with both the phones have the same SOC, the same amount of RAM and more. But underneath is still a powerful deviceThe judgment - Oppo F19 Pro+ 5G is more about design and slightly improved camera experience than performance is in line with other phones with the MediaTek Dimentsence 800U chip that you can also easily choose the Narzo 30 Pro and not feel the difference. But the phone camera offers a more impressive camera experience and looks great in doing so! Should I buy? - Yes. This is a beautiful 5G phone with capable chambers and long battery life. ... Read more about professionals, silver finish is a very good way out in the camera. A good moment for independent work. The disadvantages of the moderate performance index are accurately accurately hot environments.
