Communication with virtual girlfriends has been existing only in fantastic films and video games for a long time. But technological progress doesn't stop still. So, nowadays amateurs and professionals are creating improved programs and applications for mobile phones for virtual communication. In this article, we will present to you the best virtual girlfriend apps for iPhone and Android phones. Let's start! My Virtual Girlfriend is a mobile simulator of fun and flirty communication. In the app, you will communicate with. You can specify which characteristics you like in girls. Then, you will be offered several variants to choose from. Also, it is possible to choose a girl's appearance. Change her face, hair and skin color, clothes, and even her name. After making a choice, you are ready to start communication. Here you will find several types of making an acquaintance: start the conversation, go to the cinema, play mini-golf and so on. Every choice has its rewards and consequences. She even feels your touching. Be careful, as she can point to the door if you make something wrong. In the game, there are many levels. You will open new ways of communicating with your girlfriend at every new level. The dialogue becomes more and more intimate... Express yourself as a pickup master with the girl of your dream! You may also like: 17 Best Chatroulette apps for Android & iOS Virtual Girlfriend Momoda is a beautifully designed application that is absolutely safe. Here you will meet a top supermodel of our planet. You can have an interesting dialogue with her. Then, she will become a good company for you in your daily life. Your girlfriend is a 3D model and can be around 360 degrees. You can touch her, feel her love and joy. It is possible to change clothes, shoes, hairstyles, hats and so on. You can make her dance for you even. My Virtual Manga Girl is an original simulator of a virtual girlfriend in manga style. You will be offered to care for the girl and try to cheer up her. She likes to wear beautiful clothes and to change her hairstyle. Also, she likes tasty meals very much. So, be ready for her whims. The interesting small toys. Do not go there of course without the popular genre of "three-in-row. The interesting thing is that you will not be bored in this game, as the developers have thought of some interesting small games. No doubt, there is the popular genre of "three-in-row" gameplay and many others. Although the developers marketed My Virtual Manga Girl as a full simulator in the style of Talking Tom Cat, this game is simply a typical Tamagotchi. So, you can feed the girl, dress her, put her to sleep, and have a fun time in her company. All in all, the simulator looks modern and bright. The girl is sounded perfect and the music can not be called annoying. First of all, this app stands out by an authentic name. Seriously, here you will find your pocket girlfriend. It's up to you to decide if you want to be friends with her, or you want to be friends with her, or you want her to be your lover or confidant. Apart from that, this pocket girlfriend reminds of Tamagotchi - she needs to eat, sleep, and talk. If you treat her right, then she will be all over you. By the way, you can talk to her by using the headphones microphone or simply the chat in the app. Everybody knows that the first place where virtual girlfriends got the most popular has always been Japan. No, we're not going to start discussing this topic but just admit the fact that logically, most virtual girlfriends got the most popular has always been Japan. No, we're not going to have that anime style. And to be honest - they are pretty cute. In this app you are creating your perfect virtual manga-girlfriend, starting from the basic details, such as eyes, hair, body, and ending up with the color of the skirt of size fo rings. Dream Girlfriend brings the broadest opportunity for customization. However, except for this possibility, there is pretty much nothing else. Haven't you found an ideal girlfriend? So, you can try the Naughty Girlfriend app. This Naughty Girlfriend will dance for you, flirt and communicate with you. It is possible to manage her emotions: make her happy, sad, angry, etc. It seems that you communicate with a real girl, but it is still a virtual girlfriend named, Cindy... It's up to you. This is another app that allows you to have a virtual girlfriend and its main feature that distinguishes this app from the others is that she doesn't require you to be all over her in order to get her in the mood. Cindy is a perfect girl who does what you want, looks how you want, and speak any language you want. You can chat with her using the chat in the app. Simple, but a fun app. This app is already not that sophisticated as other ones, but it is still the virtual girlfriend app. If you have been dreaming of approaching an actress or a model, you can do that in this app with a high chance that you will succeed. You can also give your virtual girlfriend app. While communicating with your friend you can send her photos and she will certainly evaluate them all. But this girl has her own private life, so do not disturb her when she is sleeping or doing shopping. Although you can ask her what she purchased a bit later. One annoying thing about the app is that it contains a lot of ads. Communicate with your new girlfriend Julie in the app. She likes to talk on different themes. Julie has a realistic voice and 3D animation. She can express her feelings such as love, sympathy or distaste, and more... Create your own Julie for yourself and she will remember you and what you are talking about. You can teach her special answers and choose from different avatars or create your own one.
