Acer predator sense not working. Acer predator 17 won't turn on.

10 Factors to Consider When Selecting A Monitor for Video Editing Read More Watch movies, view presentations, and more with the Full HD Predator XB0 24" 16:9 144 Hz G-Sync LCD Gaming Monitor from Acer. This monitor supports a 1920 x 1080 resolution with a 1 ms response time to help reduce ghosting and blur when viewing fast moving videos. In addition to the enhanced response time, you also benefit from a 16:9 widescreen aspect ratio, 100,000,000:1 contrast ratio, 350 cd/m² brightness rating, and support for up to 16.7 million colors. Setup and configuration of this Acer monitor is simple as it features DVI, DisplayPort, HDMI, and VGA connectivity. Once configured, you can then adjust the tilt angle from -5 to 35°, pivot, swivel, and adjust the height of the monitor up to 4.53". NVIDIA G-Sync NVIDIA G-Sync technology syncs the display's refresh rate with your graphics card's frame rate output to reduce screen tearing, stuttering, and ghosting for a smoother gaming experience. Full HD 1920 x 1080 screen resolution for enhanced clarity Ultra-fast 1 ms response time for reduced ghosting and blur Integrated DisplayPort connectivity Widescreen 16:9 aspect ratio Tilt, pivot, swivel, and adjust the height of the display for enhanced viewing comfort UPC: 191114349212 In the Box Acer Predator XB0 24" 16:9 144 Hz G-Sync LCD Gaming Monitor DVI Cable DisplayPort Cable VGA Cable Power Cable Limited 3-Year Warranty User Manual PDF 1.7mb Table of Contents just purchased a Predator XB241H and I love it! My problem is it didn't come with any kind of manual explaining all the settings etc that can be accessed by the buttons on the monitor itself. My last one was a CRT so I'm totally lost as to what some of this stuff is for and how to use it. I looked on website and everywhere else I could think of but no dice. Any help would be greatly appreciated as I would really like to get all I can out of this beauty. 0
