Best City Builder Games for Android Editor: The games are not ranked from best to worst, the list is completely random. City Island 5 à Building Sim à The best city building game City Island 5: Building Sim is the most popular city building simulator specially designed for mobile devices. In the city building game you have to start developing a city located on a big island the size of a metropolis that will already have more than one island. From the very beginning of the game you are in charge of the entire city, developing it in all areas and making yourself the metropolis of your dreams. The development of your future metropolis begins with the completion of tasks and missions, for which you will receive good gifts and bonuses. With the right placement of buildings, you will get more profit in the city treasury. The profit should be used specifically for its further development. In addition, as the city develops in City Island 5: Building Sim, you can discover new places and opportunities. A distinctive feature of the application is its high qualityand original design. In addition, the game has simple controls and interface, the download is free regardless of the type of mobile device. For true fans of the genre, there is paid content that opens access to additional features of the game. SimCity BuildIt - City Building Game Are you ready to be the new mayor of SimCity? You have the important task of creating your own city, a unique, beautiful city that will please all residents. Not an easy task, but definitely an exciting one. It is important not to forget that you should always consider the opinion of the townspeople: as your city grows, they will make more and more demands. You can construct many buildings in your SimCity BuildIt city, don't miss the chance to try out the very realistic role of an educated mayor. But it will be necessary to build sensibly so that the city develops and the budget increases. In addition, you can configure trading with other cities, and if you play with other users, it will be even more interesting to trade with them. During the game you can unlock exclusive buildings that will further decorate your city. And to make it even more fun, unleash a natural disaster and show how cleverly you can do it! Like any mayor, the city will face real problems: traffic jams will appear, buildings will be damaged, someone or something will pollute the environment. Work to eliminate these problems, develop city services and don't forget to entertain the residents or they will not be happy anymore. The game brings exciting challenges and if you overcome all of them, you can become the best mayor in the world! TheoTown - City Simulator If you are looking for a fun city building simulator, try TheoTown. In TheoTown you can build your own town from scratch, including any streets, houses and shops you want. You also need to make sure your town has enough resources for itits citizens are satisfied, including electricity, water and garbage collection. If you really want to get creative, you can even design your own cars to use in your city. This game is a great way to spend a day (or a whole weekend) building your own city. There is no wrong way to play, so give it a try and enjoy hours of fun. City Mania: City Building Game - Best building games City Mania is a very colorful city building game for Android from Gameloft Studio. The game has a beautiful graphic design of three-dimensional locations. It will also please fans of all kinds of farms with high-quality animation, good special effects and pretty decent sound. We have to build the most colorful city in the world, create residential areas, parks and commercial areas, develop infrastructure and build socially significant and administrative facilities, and much more. At the same time, it is important to think about the safety of local residents, take into account their wishes when planning roads, comply with environmental standards and provide important services to residents. Build water towers, power plants, shops, fire stations, farms and greenhouses, building material factories and more. Yes, the more your city grows, the longer you will have to wait for all kinds of upgrades and upgrades, but there will be more objects, so you will not get tired of this strategy. There are, of course, certain nuances. It is important to note that build updates and build requests require a high level of activity from us. To complete various tasks, we get magical chests with resources, specialists and rare coins. City Madness This is a great city planning strategy. I recommend it to all fans of the genre. Megapolis: Build City In this adventure you will feel like a real mayor of the city. Try to build a settlement and create a real onewith several million inhabitants and developed infrastructure. Of course, a city is not a country or an empire. In general, the scale of the game does not drop after confirming such strategies, but believe me, you will have much more problems with the city! Of course, there is no need to hold onto the territory or acquire new lands. Your task becomes harder and easier at the same time. Try to keep the city in working order, try to control the work of the infrastructure. Make your plan truly comprehensive, thoughtful and beneficial to the lives of your citizens. Create different forms of communication, build relationships with other cities and forget about checking the standard of living in your city. To achieve success, you need to use all the opportunities offered by the developers, including: • 700 different types of buildings; • various world cultural values; • Possibility of cooperation with neighboring cities; • Various awards and achievements. Try to build the most successful city. Tropic Sim: Town Building Game - an online building game Many of our readers would love to be in a tropical paradise where the sun shines all year round. If yes, don't miss the chance to download the new Tropic Sim: Town Building game. Yes, it's a simple city building simulator, but it's far from complicated. Create a great tropical resort, and not just one, but a whole complex consisting of several islands! After starting Tropic Sim: Town Building, you will be asked to build some islands. That's nine. However, it is better to start from the one in the center of the archipelago. The first thing to start with is residential buildings to fill the island with the workforce needed to provide quality customer service. By the way, every new building with the complex under construction must be connected by a road, otherwise employees will not be able to get thereTo date, this free new product features more than three hundred types of objects, divided into categories: residential buildings, commercial buildings, public buildings and decorative elements. Other data, only a small part of the total number of objects, is initially available. The rest is available only in two cases: when advancing in the game and when buying locked items - gold bars with donation money. Little Big City 2 - City Building Game This is a fun simulation game where you will build with great freedom and interact with the mayor and his minions to make heaven shine in all its glory. You can choose the development path yourself, for example, advanced technologies or industry, cultural heritage, etc. Visit the cities of your companions and see their results. At the same time, do not forget to open new objects and buildings and produce resources that will attract new residents. As in all games of this type, you must complete missions in order to get everything you need to build certain buildings. To complete the mission, all you need is time and, of course, money. The whole process in Little Big City 2 can be sped up with a few diamonds. The graphics component of the game is implemented at a decent level. All places and objects are worked out to the smallest detail. During the game, you will be able to admire palm trees, mountains, city streets, vehicles and much more. In a word, the bustling resort town lives its vibrant life and invites you to become a part of it. In addition, you should also pay attention to the presence of realistic sound. Unfortunately, there is no background music, which is very rare. All in all, Little Big City 2 is an addictive city builder that offers nothing new in this vein, but at least has good graphics. Tap Tap Builder Tap Tap Builder is a unique application that combines simple controls, original design and addictive gameplay. Once inside you haveThe opportunity to build the city of your dreams, start its development and become mayor. But before you start managing, you have a lot of work to do. First you need to build a city, so put on your helmet and show off your building skills. Be prepared for the fact that you will encounter many difficulties and obstacles on your way to the development of the city. In addition to building houses, you have to deal with other problems that inevitably arise among the townspeople: you have to save money for further development, put out fires and participate in improvements. Tap Tap Builder is distinguished not only by high-quality graphics, but also by simple controls: to perform a specific action, just click on the screen of your mobile device. Your progress in the game is saved automatically, thanks to which the city will develop and its vaults will grow even in your absence. The game is free for all types of mobile devices. It also comes with additional paid content that opens up even more gaming options. Dream City: Metropolis If you like city simulators, Dream City: Metropolis is a good way to spend your free time. Here you have to build the city you've always dreamed of and, of course, become its mayor with full responsibility for directing the fate of the city and its inhabitants. Build buildings, but at the same time think about whether they are really needed. Plan construction for the benefit of the city. For example, houses are the dwellings of citizens, factories are the means of producing goods and food. The amusement park is fun for both children and adults. Basically everything is well planned. Local attractions will not disturb, which will not only please tourists, but also bring additional revenues to the city budget. You think being mayor is easy even in a small town? Show your skills only if you are a fan of the genre and enjoy the difficulties that await you. Install itCity: Metropolis Show everyone on your Android device that you can be a great mayor and make everyone in your city proud. Aquapolis. Build a Megapolis You love to build cities and are a fan of old farms? Aquapolis. Building a Megapolis is another opportunity to pursue your favorite pastime however you see fit. Create your settlement, develop its infrastructure, collect, earn and use everything, this way you will get even more income. A slight departure from the traditional genre this time around is that your town isn't on land as usual, but somewhere underwater. This way you have the opportunity to build your own Atlantis and build it from scratch. It all started with a possible catastrophe on Earth. We don't know yet, but maybe our genius teacher will help us find out, of course, it can't be done without the help of the captain and the ever-present Lana. And if he doesn't spoil everything, part of the mystery will soon be solved. Meanwhile, you'll have to look underwater carefully and build wisely to achieve the goal of creating a great city. Manage your city, allocate resources correctly and don't forget to find answers to your questions with Aquapolis. And these are, for the most part, the best city building games for Android. If you think someone else deserves to be on the list, leave a comment and we'll take that into account. Invoice.
