Related resources SearchCellear SearchCellose searchGoogle Appsmin Menu 1 Search Rocker volume on the phone side. Press the lower side of the volume barbell to take the volume down. 2 A Press to take the volume up to the required level 3 Select Mute by silent mode Select the country and the operator below to view the devices guides for your operator. Note: Your operator does not offer device guides. Some phones, tablets, guides, settings and other features will not be available or incorrect. Something went wrong. Wait a moment and try again. Something went wrong. Wait a moment and try again. Hi, I received the note redmi 10 the other day, but I have a problem with the ringtone change. I have A custom .mp3 file to use as a ringtone, but when someone calls it uses the default ringtone ... if you select a ringtone from pre-installed, there is no problem, but when I choose a different file always uses the default ringtone instead of the selected . Anyone who has an idea like this can be solved? Page 2 14 Comments The smartphones Xiaomi and Redmi are equipped with a dozen ringtones by default. If you like to change default ringtone on Xiaomi Redi, or use voice recordings or music as a ringtone on Xiaomi and Redmi, this guide is just for you. In this guide, we will show you three different ways to change ringtones on Xiaomi RedMi phones. Note: The above steps were written for MIUI V6, based on Android 5.0.2 on a note Redmi 2. You can see some difference for other versions MIUI / Android. # 1. How to change predefined ringtones on Xiaomi Redmi? You can run the settings app on Xiaomi and Redmi phones, then go to the sound >> phone ringtone to change a new ringtone on the phone. Your pre-loaded ringtones on Xiaomi or Redmi will then be displayed. You can select the ringtones from there to customize the sound or warnings of your phone. If you don't like the ringtones of the system, Xiaomi Redmi also allows you to use your song / music as a ringtone or you can use the recorder app on the phone to record any sound, voice or music as ringtones, see the details below. # 2. How to set music and recordings as ringtones on Xiaomi Redmi? Here are the simple steps on how to do it: on your Xiaomi or Mobile Mobile Redmi, touch Settings> General settings> Ringtone> Telephone ringtone Open the Select Tone screen, tap Browse the button at the bottom of this screen. Another Select Tone screen opens that allows you to add voice recordings or music tracks as ringtones on Xiaomi RedMi mobile phones. From the screen above, you will be able to select recording app, then select and set voice recordings as ringtones on Xiaomi or select App Music Player, then choose and set music songs as ringtones on Xiaomi Redmi. # 3. How to set a song as a ringtone on Xiaomi Redmi? Ã ¢ â,¬ "A simpler way you can actually set a music as a ringtone from the music player app on xiaomi or redmi. Start the musical app, select my music, choose all the songs or offline, browse the songs, Albums or folders, find the song and reproduce. When playing the song Select in the Musical App, there will be a reduced bar at the bottom of the screen, tap on it to enlarge it in full screen, see Screenshot screen. Touch The Other button (three points Ã ¢ â,¬ |) To view the options you can manage the select music, including the quota, delete and so on. There will be a Ã ¢ â,¬ Å "set as a ringtone" from list. Touch it to set a song in the music app as a ringtone on your phone Xiaomi or Redmi. Other suggestions xiaomi redmi tricks and tricks
